

Term 1 Week 1 2012

PRESCHOOL

The new children are transitioning smoothly with support and assistance being given as required. The Older children are role-modelling the routines and practices which will help the new children to become familiar with their learning environment, build nurturing relationships and feel confident to express thoughts and emotions. Parent partnerships information will also help staff to provide supportive and familiar experiences to help all children develop a sense of belonging in the Pre-school.
